

TANZANIA

GREAT MIGRATION SAFARI

AUGUST 1 - 12, 2022 & AUGUST 13 - 24, 2022

This exclusive safari explores the best of Uganda's diverse wildlife. This classic Tanzania safari is operated by our long-standing and valued partner Thomson Safaris and features the very best that Tanzania has to offer! This is another one of our popular safaris and one that fills fast, so we are offering two safari departures. They both include a VIP visit to AWF's Canines for Conservation training center and absolutely superb wildlife viewing in Tarangire, Ngorongoro Crater, and the legendary Serengeti. This safari is scheduled to coincide with the annual migration, and allows you to observe countless wildebeest and zebra as they strive for diminishing water and green pasture. Accommodations include a blend of well-located, tastefully-appointed tented camps and award-winning lodges.

GREAT MIGRATION SAFARI

DATES - TWO DEPARTURES

August 1 - 12, 2022

& August 13 - 24, 2022

PRICE

AWF price: \$9,890/ £7,120

per person sharing

GROUP SIZE

Between 6 and 10

This classic, AWF-sponsored safari features the very best that Tanzania has to offer. VIP visits to AWF's Canines for Conservation training center and Manyara Ranch add depth to a superb wildlife adventure in Tarangire National Park, Ngorongoro Crater, and the legendary Serengeti. As the safari coincides with the great annual migration, guests will observe countless wildebeest and zebra on the move, heeding the call of ancient rhythms. Accommodations include a blend of well-located, tastefully appointed Nyumba tented camps and award-winning lodges.

DAY 1

ARRIVAL

Arrive at Arusha, where you will meet with your group. From Kilimanjaro Airport, you will be transferred to your comfortable lodge. Enjoy a snack at Rivertrees and savor the serenity of the surrounding forests and streams.

Meals included: snack

DAY 2

ARUSHA TO TARANGIRE NATIONAL PARK

Once outside the city, you cross into the Maasai Steppe and will see open, acacia-covered plains and graceful, loping giraffes. You'll arrive at one of the country's best parks and your lovely accommodations in less than two hours. Then you will visit the Canines for Conservation training center to learn more about this flagship AWF program. In the afternoon, explore the banks of the Tarangire River, where families of elephants often gather. During your drive, see if you can spot the stunning lilac-breasted roller or the hulking silhouettes of marabou storks in the distance. Enjoy a welcome dinner and the full Tanzanian hospitality that comes with it.

Meals included: breakfast, lunch, dinner

DAY 3

TARANGIRE NATIONAL PARK

Spend a morning wildlife viewing in Tarangire, searching for different kinds of antelope as well as elephants, giraffes, zebras, wildebeest, and more! You will have lunch at your Nyumba in Tarangire, then explore more of the park, taking in the diverse wildlife as well as the baobab-studded landscape. Guinea fowl scurry alongside your vehicle, warthogs run in the grasses, and, sometimes, you see leopards lurk in the vegetation near the road. Back at camp, sit by the fire and relax, exchange stories of the day, write in your journal, or simply enjoy the evening breeze.

Meals included: breakfast, lunch, dinner

DAY 4

TARANGIRE NATIONAL PARK

With an astounding 550 avian species, Tarangire is a veritable birder's paradise. Tarangire also attracts some rarer mammals, such as the African wild dog. Enjoy your lunch outdoors in a scenic spot. At night, listen to the hypnotic sounds of the wilderness around you as you rest at your camp and reminisce about the unforgettable sights of Tarangire. **Meals included: breakfast, lunch, dinner**

DAY 5

TARANGIRE NATIONAL PARK TO THE NGORONGORO HIGHLANDS

Depart Tarangire for a beautiful drive through the Great Rift Valley escarpment. Arrive in the Ngorongoro Highlands, where you will take in elevated views of Lake Manyara and surrounding vistas. Spend the day at Manyara Ranch, where you will learn about how communities are directly benefiting from wildlife conservation in this critical corridor. Later, enjoy a leisurely walk through the gardens at Gibb's Farm, an award-winning lodge. That night, gather for stargazing and storytelling around the Tembo Fire, a tradition that began as a practical measure to keep elephants out of the gardens at night. **Meals included: breakfast, lunch, dinner**

DAY
6

NGORONGORO HIGHLANDS TO NGORONGORO CONSERVATION AREA

Join a naturalist for a birding walk through the farm and gardens and spot a stunning array of avian species, from crowned hawk-eagles to Fischer's lovebird, and Abyssinian nightjar. Savor lunch at Gibb's, where nearly every ingredient comes fresh from the estate's organic farm. Then drive a short distance to Ngorongoro Conservation Area, a wildlife and cultural preserve covering 3,200 square miles, of which 102 square miles are Ngorongoro Crater. Immerse yourself in the semi-nomadic culture of the Maasai by visiting a boma, a settlement of circular mud-and-dung Maasai homes.

Meals included: breakfast, lunch, dinner

DAY
7

NGORONGORO CONSERVATION AREA

Spend a day in Ngorongoro Conservation Area. Sometimes there are more than 30,000 animals in and around the crater, including black rhino, cheetah, lion, hyena, eland, and numerous antelope. Over a full day of wildlife viewing, you might even see rhinoceros. You will have a bush lunch on the floor of the Ngorongoro Crater. At night, listen to the hypnotic sounds of life on the rim as you rest at your camp. Enjoy a traditional Tanzanian dinner, rich with spices and fresh local vegetables — a chance to sample the best of local cuisine!

Meals included: breakfast, lunch, dinner

DAY
8

NGORONGORO CONSERVATION AREA TO SERENGETI NATIONAL PARK

Depart the cool, grassy Ngorongoro Conservation Area for the great Serengeti plains and a different — but just as spectacular — wildlife viewing experience. Serengeti National Park covers 6,000 square miles of pristine land and offers not only expansive vistas but the largest migration of mammals on Earth, including 1.5 million wildebeest. Make a short stop at Oldupai Gorge, a deep ravine and site of fossilized remains of animals and hominids that date as far back as 2 million years. A brief lecture and small museum tour are included. Enjoy the journey to your next Nyumba camp, as there will be plenty to see along the way.

Meals included: breakfast, lunch, dinner

DAY
9

SERENGETI NATIONAL PARK

Those who made reservations will have the opportunity to balloon across the plains during one of our Serengeti mornings. Take to the skies just as the sun rises. Glide over the plains and acacia treetops, marveling at spectacular views of the Seronera River Valley and the surrounding plains. Then enjoy a magnificent champagne breakfast in the midst of the Serengeti wilderness. Look for herds of wildebeest, zebra, giraffe, impala, eland, topi, and more out on the savanna.

Meals included: breakfast, lunch, dinner

DAY
10

SERENGETI NATIONAL PARK

Go on a wildlife drive in the Serengeti for a full day. Your expert guide will point out species that few others could hope to spot, whether a leopard well-concealed in the trees or a lion deep in the savanna grasses. Enjoy your Nyumba, whether you get in a workout with a Keep Fit Kit, learn a traditional Tanzanian game from your guide, write in your journal, or simply put up your feet and relax.

Meals included: breakfast, lunch, dinner

DAY
11

SERENGETI NATIONAL PARK

Spend an afternoon wildlife viewing in the Serengeti. The big cats often spend these hours lying drowsily about the plains and up in the trees, while many antelopes and other animals continue to graze. During your Tanzania farewell dinner, you can reflect on the many sights, adventures, and experiences that you will remember for years and years to come.

Meals included: breakfast, lunch, dinner

DAY
12

DEPART

Spend another morning exploring the rich ecosystem of the Serengeti before your flight from Northern Serengeti to Arusha. Enjoy a delicious lunch and a visit to the adjoining Shanga workshop, where physically challenged artisans create remarkable jewelry, practice glassblowing, and sell their work. A shopping mainstay in Arusha, the Cultural Heritage Center offers wooden carvings, artifacts, apparel, and crafts. Relax in your dayroom in Arusha, readying yourself for your departure. Enjoy a nutritious snack of nuts, fruit, vegetables, and other treats for now or on your flight home.

Meals included: breakfast, lunch, dinner

Canines for Conservation

BY CARTER SMITH, AWF SAFARI PROGRAM MANAGER

Since July 2015, when the first class of detection dogs and canine handlers graduated from AWF's dog training facility in Tanzania, our Canines for Conservation program has grown in size and reputation.

We now have canine teams supporting anti-trafficking work in five African countries — and the list is growing — helping authorities leverage limited resources to catch smugglers and deter future illegal operators.

AWF's partners deploy the highly skilled canine teams to airports, seaports, border crossings, and other hot zones to sniff out and arrest traffickers of ivory, rhino horn, and other contraband. A growing focus of the program is the training and deployment of tracker dogs, who work in the field and follow trails from kill sites to poachers' doorsteps, often over many kilometers and several days.

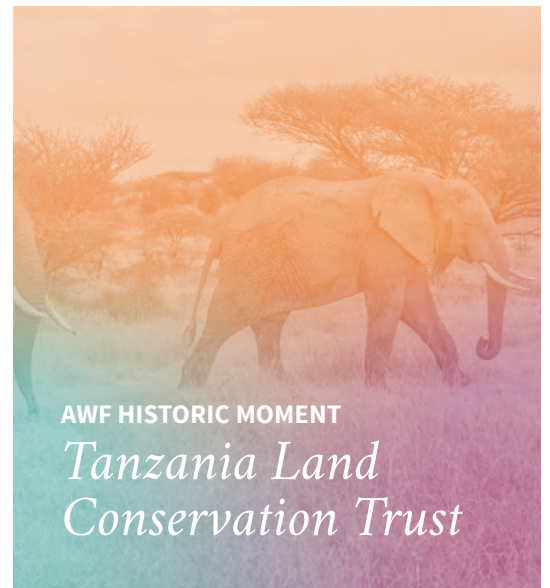

In 2020, the COVID-19 pandemic brought tourism to a halt, creating tremendous hardship for wildlife communities that depend on tourism for income. Afraid that this deprivation would lead some individuals to poaching, authorities expressed a greater need for tracker dogs in the field — even

as they still needed detection dog teams to search warehouses and dockyards. To fulfill these government requests, AWF graduated new handler classes and procured additional dogs, placing additional units at Kilimanjaro International Airport, and deploying dogs to the wildlife-rich Serengeti protected area. We also enhanced our support of tracker units in Manyara/Tarangire ecosystems as well as Lake Nakuru National Park and Ol Pejeta Conservancy, Kenya.

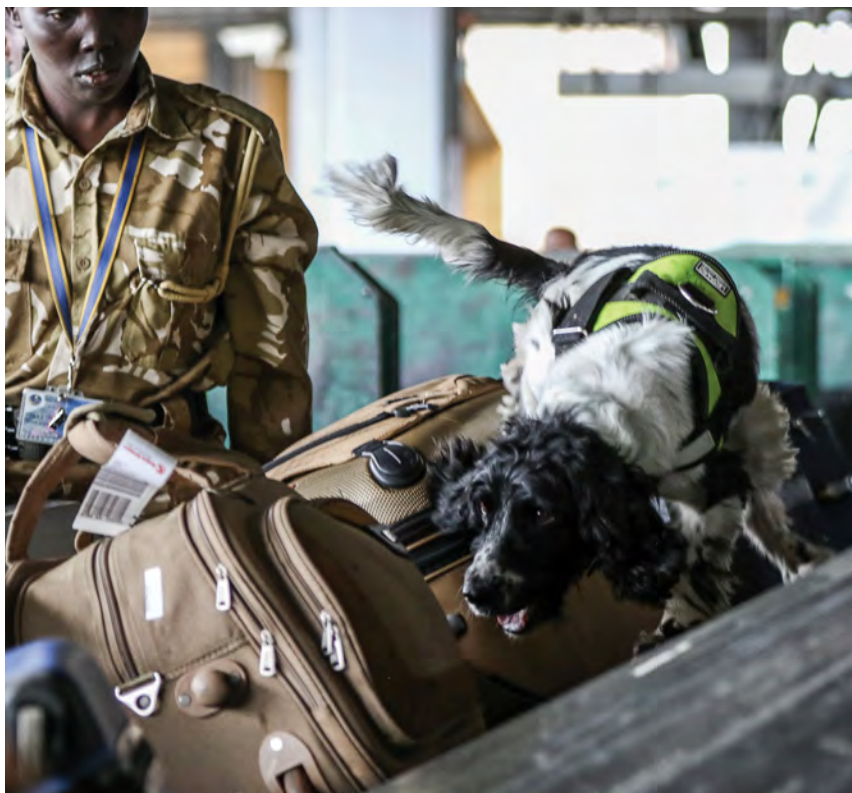

Canines for Conservation teams have made over 470 busts, representing millions of dollars in seized goods and an inestimable cost in lost animal lives — elephants, rhinos, lions, pangolins, and other endangered species. But another measure of the program's effectiveness is the number of governments interested in working with us. Botswana, Cameroon, and Mozambique are the most recent additions to the roster of countries with Canines for Conservation units deployed, joining Kenya, Uganda, and Tanzania.

In 2001, AWF in collaboration with the Tanzanian government created the Tanzania Land Conservation Trust (TLCT). Manyara Ranch, managed by AWF from then to present, was the first conservancy in Tanzania to be incorporated with a plan for permanent sustainability with direct benefits flowing to local communities, professional management, proper governance, effective security, and investments in infrastructure that aligned with the Ranch's various enterprise opportunities.

Elephant Conservation

BY CARTER SMITH, AWF SAFARI PROGRAM MANAGER

Recent findings show that, after peaking in 2011, elephant poaching rates in Africa are slightly declining. But even with new bans on ivory trade in several of the world's leading markets, the continent's iconic species is still under threat. Conserving elephant populations in their natural habitats and putting an end to the international wildlife trade is critical.

AWF approaches elephant protection using diverse strategies that include anti-poaching activities in elephant landscapes, anti-trafficking programs such as Canines for Conservation, and provision of non-lethal elephant deterrent technologies to mitigate conflict.

Human-elephant conflict (HEC) is one of the major challenges facing both elephants and human communities in Africa. In Mbire District, northern Zimbabwe and around Murchison Falls in Uganda, we support chili growers who use the pungent crop as a non-

lethal method of repelling unwanted pachyderm visitors. The chili crops also help farmers diversify their incomes, thus building community resilience and providing a sustainable livelihood option.

In addition to agricultural training, we've provided the Murchison farmers materials to build solar dryers that improve the quality of the products they bring or send to market. In recent years, despite weather changes and other unexpected challenges, the farmers, on average, managed to double their yield.

Meanwhile, in the Tsavo-Mkomazi cross-border landscape in Kenya and Tanzania, AWF has trained over 3,000 farmers in HEC mitigation and provided the communities noise-based repellents such as torches, vuvuzelas, and whistles.

Meet Your Guides

Craig Sholley

AWF's Senior Vice-President Craig R. Sholley's experience with wildlife and conservation began in 1973 as a Peace Corps volunteer in Zaire. As an L.S.B. Leakey grant researcher in the late 1970s, Craig studied mountain gorillas with Dian Fossey and, in 1987, became director of Rwanda's Mountain Gorilla Project, of which African Wildlife Foundation was a sponsor. Craig has acted as Scientific Advisor for the award-winning IMAX film, *Mountain Gorilla*, with National Geographic. He surveyed the conservation status of mountain gorillas in the aftermath of Rwanda's civil war. Craig's direct involvement with AWF began as a Senior Associate and member of AWF's Board of Trustees. He became a full-time employee of AWF in 2001.

Carter Smith

AWF's Safari Program Manager, Carter Smith, moved to Kenya in 1994 to pursue her dream of a life of wildlife conservation in Africa, and she never looked back. She spent her early years in the bush rehabilitating birds of prey while completing her graduate degree in Ecology on the Martial Eagle. She later joined Sir Iain Douglas-Hamilton at Save the Elephants, while also becoming one of the first female licensed safari guides with the Kenya Safari Guide Association. In 2005, she founded her own safari venture and spent the next 15 years leading private safaris in East Africa. Carter joined AWF in 2019 to lead the Safari Program and looks forward to every trip when she can take guests on the adventure of a lifetime. Carter is also the author of the children's book *African Tea*.

**Note: While Craig and Carter are scheduled to lead this trip, AWF is equipped with a range of highly dedicated staff members that may lead your trip. A second leader will accompany Craig and Carter if trip attendance permits.*
